SUMMARY

AI Engineer with hands-on experience in machine learning, generative AI, and full-stack development. Proficient in building RAG pipelines, LLM-powered apps, and REST APIs using Python, FastAPI, and TensorFlow. IEEE co-author with research impact in NLP and agricultural AI.

EDUCATION

G.H. Raisoni College of Engineering and Management <i>B.Tech in Artificial Intelligence — CGPA: 9.04/10.0</i>	Nagpur, India <i>2023 – 2027 (Expected)</i>
Kids Mentor Global School and Jr. College <i>Higher Secondary Certificate (HSC) — 67.40%</i>	Nagpur, India <i>2023</i>
Shahu's Garden High School and Jr. College <i>Secondary School Certificate (SSC) — 91.40%</i>	Nagpur, India <i>2021</i>

TECHNICAL SKILLS

Core: Retrieval-Augmented Generation (RAG), LangChain, LangGraph, LlamaIndex, Langfuse, NLP, API Development, Machine Learning, SaaS, Generative AI, Prompt Engineering
Languages: Python, JavaScript, SQL, HTML, CSS
Frameworks: Flask, Tailwind CSS, TensorFlow, Pandas, scikit-learn, Matplotlib, FastAPI
Tools & Platforms: Supabase, ChromaDB, Docker, PostgreSQL, Git, Vercel, Render, Netlify, LLM APIs, OpenRouter (Groq), Gemini

INTERNSHIP/EXPERIENCE

Machine Learning Intern Prodigy InfoTech	Remote <i>Nov 2024 – Dec 2024</i>
- Developed a real-time Hand Gesture Recognition model with OpenCV and Python, attaining 92% detection accuracy across 10 gesture classes. - Applied K-Means clustering on retail data to uncover 4 customer segments, informing targeted marketing strategies.	
AI Research Intern Vishwamanthan Research Foundation	Nagpur, India <i>May 2024 – July 2024</i>
- Analysed 500+ soil samples across 5 parameters (pH, moisture, nutrients) to train a crop recommendation ML model for precision agriculture. - Presented research findings at the International AI Manthan 2024 conference.	

PROJECTS

Vidi — Financial Compliance Assistant (Personal)	<i>React, FastAPI, ChromaDB, Gemini 1.5 Flash</i>
- Built an LLM-powered RAG app enabling Indian SMEs to query GST, RBI, SEBI, MCA, and FEMA regulations; indexed 500+ regulatory docs into a ChromaDB vector store. - Engineered a multi-tenant FastAPI backend with Supabase auth, conversation thread persistence, and Razorpay billing; deployed on Render + Vercel.	
Slate — AI Habit Tracker (Group)	<i>FastAPI, Supabase, Groq API, pgvector</i>
- Built a FastAPI backend and RAG pipeline, embedding user habit history via SentenceTransformers into Supabase pgvector. - Developed a context-aware AI coach using Groq (Llama-3.1) and cosine similarity search to deliver sub-500ms personalized guidance.	

LEADERSHIP & ACHIEVEMENTS

IEEE Publication — Gondi WordNet	<i>2024</i>
<i>Co-author</i> ieeexplore.ieee.org/author/400073779674138	
Built a semantic WordNet with 250+ lexical relations for the low-resource Gondi language.	
Vice Chair, IEEE Communication Society Student Branch	GHRCEM, Nagpur
<i>2025 – Present</i>	
Organised 4+ workshops and 2 hackathons for 150+ students, handling speaker coordination and logistics.	
Student Coordinator, International AI Manthan 2024	VRF, Nagpur
Coordinated scheduling and logistics for 200+ attendees as liaison between presenters and organisers.
